WORK EXPERIENCE

MERN Stack Developer Intern – *E-Sutra Technologies Pvt. Ltd.*
July 2025 – Present

- Built and enhanced full-stack web apps using the MERN stack and PostgreSQL.
- Developed secure authentication, REST APIs, and responsive UI with React & TailwindCSS.
- Collaborated in Agile/Scrum teams for feature delivery, deployments, and optimization.
- Documented processes, reducing onboarding time for new developers.

PROJECTS

Real-Time Chat Application — *React, Node.js, Express, MongoDB, Socket.IO, JWT*

- Developed an interactive chat platform with live updates and secure authentication.
- Integrated Socket.IO for instant messaging with <200ms latency.

Full-Stack Food Delivery App — *React, Node.js, Express, MongoDB, Stripe, JWT, Multer*

- Built a scalable food delivery platform with real-time cart updates and secure Stripe payments.
- Created an admin panel for managing products, orders, and users, reducing manual work by 40%.

Canteen Management System — *React, Node.js, Express, MongoDB, JWT, Multer, TailwindCSS*

- Designed a system to track student attendance and automate meal management.
- Added role-based access control and admin tools, reducing daily management effort by 50%.
